

## **PHYSICAL INTERVENTION POLICY - Combat Classroom**

The purpose of this policy is to make clear the position of Combat Classroom with regards to necessary physical interventions and to safeguard the well-being of students and staff when a situation or incident requires the use of physical intervention.

It is the objective of Combat Classroom to maintain consistent and safe practices in the use of handling, reasonable force & restraint.

### **Physical Intervention and the Law**

The law allows all adults who are authorised by the Provision Lead to be responsible for students to use such force as is reasonable to prevent a student:

- a) Committing a criminal offence (or for younger children that which would be an offence)
- b) Causing personal injury, injury to others or damage to property
- c) Engaging in any behaviour prejudicial to maintaining good order and discipline

Staff should not hesitate to act in these situations provided they follow this policy and the attached guidance; however, they should always satisfy themselves that the action they take would be considered justifiable by a wider audience of their professional colleagues.

### **Definition of Terms:**

**Handling** – refers to any physical intervention applied by a member of staff where it necessary to make physical contact with a student in order to manage their conduct or ensure their own or others safety. Handling strategies may be restrictive or non-restrictive and include shepherding, guiding, supporting, blocking, confining, holding and, in the most extreme cases, restraining.

**Use of Reasonable Force** – is the application of appropriate and proportionate force required to achieve the required outcome from the handling strategy employed (see above) without further endangering the student, member of staff or others present at the time of physical intervention.

**Restraint** - is the positive application of force in order to actively prevent a child from causing significant injury\* to him/herself or others or seriously damaging property.

\*Significant Injury would include: actual or grievous bodily harm, physical or sexual abuse, risking the lives of, or injury to, themselves or others by wilful or reckless behaviour, and self-poisoning.

It must be shown that on any occasion where physical restraint is used there were strong indicators that if immediate action had not been taken, significant injury would have followed.

## **Implementation of Physical Intervention**

All members of staff working with students at the provision are authorised to handle, use reasonable force or restrain students if/when such physical intervention is necessary.

No member of staff is required to employ any physical intervention strategy if they are not comfortable or confident to do so effectively.

No member of staff should intervene physically if they have reason to believe that to do so would worsen the situation/incident that is taking place.

In all circumstances where physical intervention is or may become required, members of staff should ensure that adult assistance is requested before intervention, although it is understood that circumstances may lead to the need for intervention prior to the assistance arriving.

Staff considering handling, use of reasonable force or restraint must provide opportunity for the student to alter their behaviour/actions before employing a physical intervention strategy and should continue to make instructions to the student and details of their intended interventions clear.

The method of physical intervention employed must use the minimum reasonable force for the minimum length of time (additional guidance regarding what intervention is and is not appropriate is given in Appendix A).

## **Recording Physical Intervention**

All incidents where staff feel that they have used force to modify behaviour or conduct should be recorded on the appropriate forms, and the Provision Lead will be informed that intervention has taken place. It is not necessary to record every incident of contact with a young person, but where a member of staff perceives that contact has been received at all negatively, they are advised to record the circumstances.

The circumstances and nature of the physical intervention will be held on the record of the student involved.

The DSL will inform any necessary agencies/authorities of the physical intervention in accordance with DFE and LA guidance. The Provision Lead will ensure that parents/carers are appropriately informed.

For the safeguarding of both staff and student, any subsequent investigation of the situation/incident should be undertaken by a member of staff other than the one applying the physical intervention.

## **Searching Students**

Searching, screening and confiscation is conducted in line with the DfE's latest guidance on searching, screening and confiscation.

### **Confiscation**

Any prohibited items found in a student's possession as a result of a search will be confiscated. These items will not be returned to the student and the police may be contacted.

We will also confiscate any item that is harmful or detrimental to the provision's discipline. These items will be returned to students after discussion with senior leaders and parents, if appropriate.

### **Searching a student**

Searches will only be carried out by a member of staff who has been authorised to do so by the Provision Lead, or by the Provision Lead themselves.

Subject to the exception below, the authorised member of staff carrying out the search will be of the same sex as the student, and there will be another member of staff present as a witness to the search.

An authorised member of staff of a different sex to the student can carry out a search without another member of staff as a witness if:

- The authorised member of staff carrying out the search reasonably believes there is risk that serious harm will be caused to a person if the search is not carried out as a matter of urgency; **and**
- In the time available, it is not reasonably practicable for the search to be carried out by a member of staff who is the same sex as the student; **or**
- It is not reasonably practicable for the search to be carried out in the presence of another member of staff

When an authorised member of staff conducts a search without a witness they should immediately report this to another member of staff, and ensure a written record of the search is kept.

If the authorised member of staff considers a search to be necessary, but is not required urgently, they will seek the advice of the Provision Lead, designated safeguarding lead (or deputy) or pastoral member of staff who may have more information about the student. During this time the student will be supervised and kept away from other students.

A search can be carried out if the authorised member of staff has reasonable grounds for suspecting that the student is in possession of a prohibited item or any item identified in the provision rules for which a search can be made, or if the student has agreed.

An appropriate location for the search will be found. Where possible, this will be away from other students. The search will only take place on the provision premises or where the member of staff has lawful control or charge of the student, for example on a community trip.

Before carrying out a search the authorised member of staff will:

- Assess whether there is an urgent need for a search
- Assess whether not doing the search would put other students or staff at risk
- Consider whether the search would pose a safeguarding risk to the student
  
- Explain to the student why they are being searched
- Explain to the student what a search entails – e.g. I will ask you to turn out your pockets and remove your shoes
- Explain how and where the search will be carried out
- Give the student the opportunity to ask questions
- Seek the student's co-operation

If the student refuses to agree to a search, the member of staff can give an appropriate behaviour consequence.

If they still refuse to co-operate, the member of staff will contact the Provision Lead (or deputy), to try and determine why the student is refusing to comply.

The authorised member of staff will then decide whether to use reasonable force to search the student. This decision will be made on a case-by-case basis, taking into consideration whether conducting the search will prevent the student harming themselves or others, damaging property or from causing disorder.

The authorised member of staff can use reasonable force to search for any prohibited items identified in section 3, but not to search for items that are only identified in the provision rules.

The authorised member of staff may use a metal detector to assist with the search.

An authorised member of staff may search a student's outer clothing, pockets, possessions, desks or lockers.

Outer clothing includes:

- Any item of clothing that is not worn immediately over a garment that is being worn wholly next to the skin or being worn as underwear (e.g. a jumper or jacket being worn over a t-shirt)
- Hats, scarves, gloves, shoes, boots

### **Searching students' possessions**

Possessions means any items that the student has or appears to have control of, including: ➤ Bags

A student's possessions can be searched for any item if the student agrees to the search. If the student does not agree to the search, staff can still carry out a search for prohibited items (listed in section 3) and items identified in the provision rules.

An authorised member of staff can search a student's possessions when the student and another member of staff are present.

If there is a serious risk of harm if the search is not conducted immediately, or it is not reasonably practicable to summon another member of staff, the search can be carried out by a single authorised member of staff.

### **Informing the designated safeguarding lead (DSL)**

The staff member who carried out the search should inform the DSL without delay:

- Of any incidents where the member of staff had reasonable grounds to suspect a student was in possession of a prohibited item as listed in section 3
- If they believe that a search has revealed a safeguarding risk

All searches for prohibited items (listed in section 3, of the behaviour for learning policy), including incidents where no items were found, will be recorded in the provision's safeguarding system.

### **Informing parents**

Parents will always be informed of any search for a prohibited item. A member of staff will tell the parents as soon as is reasonably practicable:

- What happened
- What was found, if anything
- What has been confiscated, if anything
- What action the Provision has taken, including any consequences that have been applied to their child

### **Support after a search**

Irrespective of whether any items are found as the result of any search, the provision will consider whether the student may be suffering or likely to suffer harm and whether any

specific support is needed (due to the reasons for the search, the search itself, or the outcome of the search).

If this is the case, staff will follow the provision's safeguarding policy and speak to the designated safeguarding lead (DSL). The DSL will consider if pastoral support, an early help intervention or a referral to children's social care is appropriate.

## **Appendix A:**

### **Guidance for Staff re: Handling, Use of Reasonable Force & Restraint**

#### **1. Purpose of this document**

- To provide for the safety and security of pupils in need of physical intervention.
- To clarify for staff the steps they are allowed to take if a situation requiring physical intervention arises
- To enable staff to distinguish between what intervention is and is not acceptable.
- To ensure that staff have read the documentation from DfE.
- To help ensure that any physical intervention is minimal, infrequent, recorded and that relevant authorities and parents are appropriately informed.

#### **2. The decision to employ a Physical Intervention Strategy**

You should be aware that all staff who have responsibility for a student or group of students are authorised to employ physical intervention strategies in the event they are necessary and that the law allows you to intervene in this manner.

You should however be aware that you have a choice whether or not to intervene physically in any given situation and that you should not do so if you are uncomfortable with the situation or not confident to deal with it effectively.

You should be aware that in the event that you employ a physical intervention strategy, the parents of the child will be informed of your actions, the record of the intervention will be kept on the student's file and where necessary relevant authorities will be notified of the incident for your own future protection.

#### **3. In what way can you Physically Intervene?**

Any application of physical intervention must only use the **minimum force** for the **minimum amount of time**.

There are a number of ways in which you can physically intervene and you must choose the strategy appropriate to the situation and presenting least risk to yourself, the student and other persons.

#### **Appropriate actions include;**

**Shepherding or Guiding;** using body positioning and positive gestures to move a student away from harm. This may include the placing of a hand on the back (between the shoulder blades) and using reasonable force to actively move them from one place to another.

**Blocking or Interposing;** placing yourself between the student and their objective (e.g exit, another student) thereby preventing the potential injury damage or prejudice to good order.

**Holding and Leading;** leading the student (with open hand e.g by the upper arm) to prevent them from injury, damage, etc. In cases of resistance from a student, it may be necessary to employ holding to effectively achieve shepherding and, hence you are actively leading them away.

**Restraining;** used only in the most extreme cases, restraining may require a significant amount of force in order to prevent significant injury (as described in the policy). Essentially, restraining is a more extreme version of holding, may require more than one adult and may last significantly longer than other strategies. However, the same care must be taken to restrain a student appropriately.

#### **4. In what ways must you NOT Physically Intervene?**

The purpose of physical intervention is essentially to maintain good order and ensure the safety of all individuals, therefore it is never appropriate to employ a physical intervention strategy if you are not in control of your own emotions. Physical interventions must never be employed in anger or frustration. If you find yourself angry or frustrated by the situation at hand you must step back and allow someone else to manage the issue.

It is never appropriate to use physical intervention strategies as a punishment.

Just as there are a number of acceptable intervention strategies, there are also a number of actions it is completely inappropriate to take.

##### ***Inappropriate actions include;***

**Hitting or Striking;** while it is entirely possible that in the course of an intervention (eg. breaking up a fight) you may be hit yourself, you must not strike a student.

**Deliberately inflicting pain;** it is not okay to twist limbs or put pressure on joints (eg. arm up a student's back), pull or hold hair, pinch or hold a student in a pain inducing way (eg. by the ear).

**Making contact with sexually sensitive areas of the body;** where at all possible contact should be restricted to arms, shoulders and the back as previously described.

**Restricting breathing;** by holding round the throat or for a prolonged period around the chest. It is also never appropriate to sit on/straddle a student or hold them face down to the floor.

#### **5. Guidance for managing your intervention**

- a) Always give a student an opportunity to resolve the situation without use of physical intervention first.
- b) Always send for assistance from colleagues or another authorised adult; other students should never be involved in physical intervention. You may have to intervene before help arrives, but not managing this entirely on your own is safer for all concerned.
- c) Be aware of your emotions. Are you comfortable and confident to deal with this scenario without anger? If not – don't intervene.
- d) Continue to communicate with the student (and witnesses) throughout the incident even if the student doesn't respond. Be clear about what you are doing and inform the student that the intervention will cease when it is no longer necessary.
- e) Apply only appropriate strategies and the minimum required force to achieve the required outcome (prevention of injury/harm, student/staff safety, restoration of good order). Release the student once this has been achieved.
- f) Manage the situation calmly – even if the student responds negatively.
- g) Complete a 'Physical Intervention Record Form' as soon as possible after the event.

## 6. Minimising the need for Physical Intervention

In most circumstances Physical Intervention really should be a last resort or an emergency action. Therefore, all staff should:

- endeavour to create a calm environment which will minimise the risk of incidents where the use of physical intervention may be required;
- endeavour to teach pupils how to manage strong emotions and conflict through opportunities for SMSC and wider aspects of the provision curriculum;
- quickly seek to de-escalate incidents if they do arise;
- only use reasonable force when the risks involved in doing so are outweighed by the risks involved in not using force;
- be aware of risk assessments and positive handling plans for specific individual pupils.

A list of authorised personnel is available from the provision but will include all teachers and staff who are contracted by the provision.

All staff must read DfE Circular 10/98. (Section 550A of the Education Act 1996 the use of force to control or restrain pupils) There will be a copy permanently kept in the staffroom.
